

Improving NTUA's research profile

Dimitris Bouris
Grand Opening Event, Athens, 24-26 January 2023

Co-funded by the
European Union

WP5: Widening of visibility and profile

Regarding the Research Profile there are two distinct pillars:

- EU research needs
- services towards the industry

Success story presentations by the partners on the above two pillars will show us the direction to go.

eg. presentation of research topics/disciplines which attract EU funding, industry needs with respect to wind tunnel testing

Important project activities/events to be planned/organized

- Schools of industrial orientation – ideas and how they can be organized/co-ordinated, in conjunction with summer schools?
- Workshop on visibility and profile by the end of year 2 (physical)
- Research or training (ITN) proposals that the consortium can launch
